

## Program Application for Admission to the Ph.D. in the Built Environment

Name

*Last*

*First*

*Middle*

**Area of Specialization**

- Sustainable Systems & Prototypes  
 Technology and Project Design/Delivery  
 History, Theory & Representation Studies

**Research Interests** Please give us a two- or three-sentence summary of your research interests. This will be included in an applicant summary circulated to our faculty.

In addition, please list any other related areas of interest.

Please list at least three College of Built Environments faculty whom you believe share your research interests and note (by ✓ check mark) if you have consulted with them regarding your application. At least one should be a member of our core faculty—a list is available at <http://be.uw.edu/phd/faculty-profiles/#core>

**Financial Aid** Please see our student support information at <http://be.uw.edu/phd/admissions-overview>. All applicants should also see the U.W.'s Office of Student Financial Aid at <http://www.washington.edu/students/osfa> for information about additional forms of aid available to them.

Below please check as many as apply.

- I am able to attend the University of Washington without financial assistance at this time.  
 I have a  partial  full scholarship/fellowship from:

- I am interested in financial assistance from the program.  
 I am interested in a Teaching Assistantship/Research Assistantship. Please list special skills/experience you can offer as a TA/RA)

- In order to create a Research Assistantship, I am interested in developing a funded research proposal with faculty in the following area(s):

**One Final Question** The PhD in the Built Environment program is developing its communications. Could you assist by letting us know where you heard about our program? \_\_\_\_\_
