The Future, and then Back to Now

A photograph of a dense forest with tall, straight trees and a thick undergrowth of ferns. Sunlight beams through the canopy, creating a dramatic effect. The text "Desired: Insight, Opinion, Passion" is overlaid in white at the bottom.

Desired: Insight, Opinion, Passion

Interdisciplinary Context, Operations and Power

Agenda

- 1. Baseline/Process**
- 2. Workgroups—Scenarios**
- 3. Lunch**
- 4. Reports**
- 5. Workgroups—Task Groups**
- 6. Reports**
- 7. Next Steps**

Audiences

1. **Potential student from Russia**
2. **Donor from technology company**
3. **Community leader on multiple civic boards**
4. **General contractor from out-of-town**

A vibrant, multi-colored spiral galaxy with a bright yellow core, surrounded by a dense field of stars and distant galaxies. The galaxy's arms are composed of various colors including red, orange, yellow, and blue, suggesting different compositions or stages of star formation. The background is a deep black space filled with numerous stars of varying sizes and colors, some appearing as bright points of light while others are more diffuse.

Universe(s)—Specific—of Possibility

DEAN'S DIALOGUE

Ongoing

In January 2019, we welcomed our new dean, Renée Cheng. Dean Cheng launched a series of conversations focused on listening, learning and planning the College's future. These dean's dialogue events focus on issues important to the College community and our collective and allied professions.

ORGANIZATIONAL REVIEW

Winter '19

Consulting firm Erolin Solutions conducted focus groups, interviews and surveys with strong College-wide participation. From this analysis, they prepared a report that identifies strengths, opportunities and recommendations. This report is available on our website.

A key recommendation from this report was to develop a College strategic plan. Other key recommendations are noted below. This background work strongly informs both current operational focuses and this SP effort.

PLANNING TO PLAN

Spring - Summer '19

In Spring, the Planning Cubed group convened. On June 4, they presented a report to the CBE community with recommendations for the strategic planning (SP) process. This group suggested the formation of a Facilitation Team (FT) to carry on the process through the following academic year. The FT will steward the year-long SP process. Summer activities refined the process to maximize opportunity for broad and widely-representative participation.

RETREAT

October 5th

We will kick off the academic year and SP discovery with a one-day retreat of faculty, staff, select students and professional community representatives. Group sessions and break-outs will encourage us to think deeply to the future, and how the College will prepare.

Interest of Collaboration v Research Funding

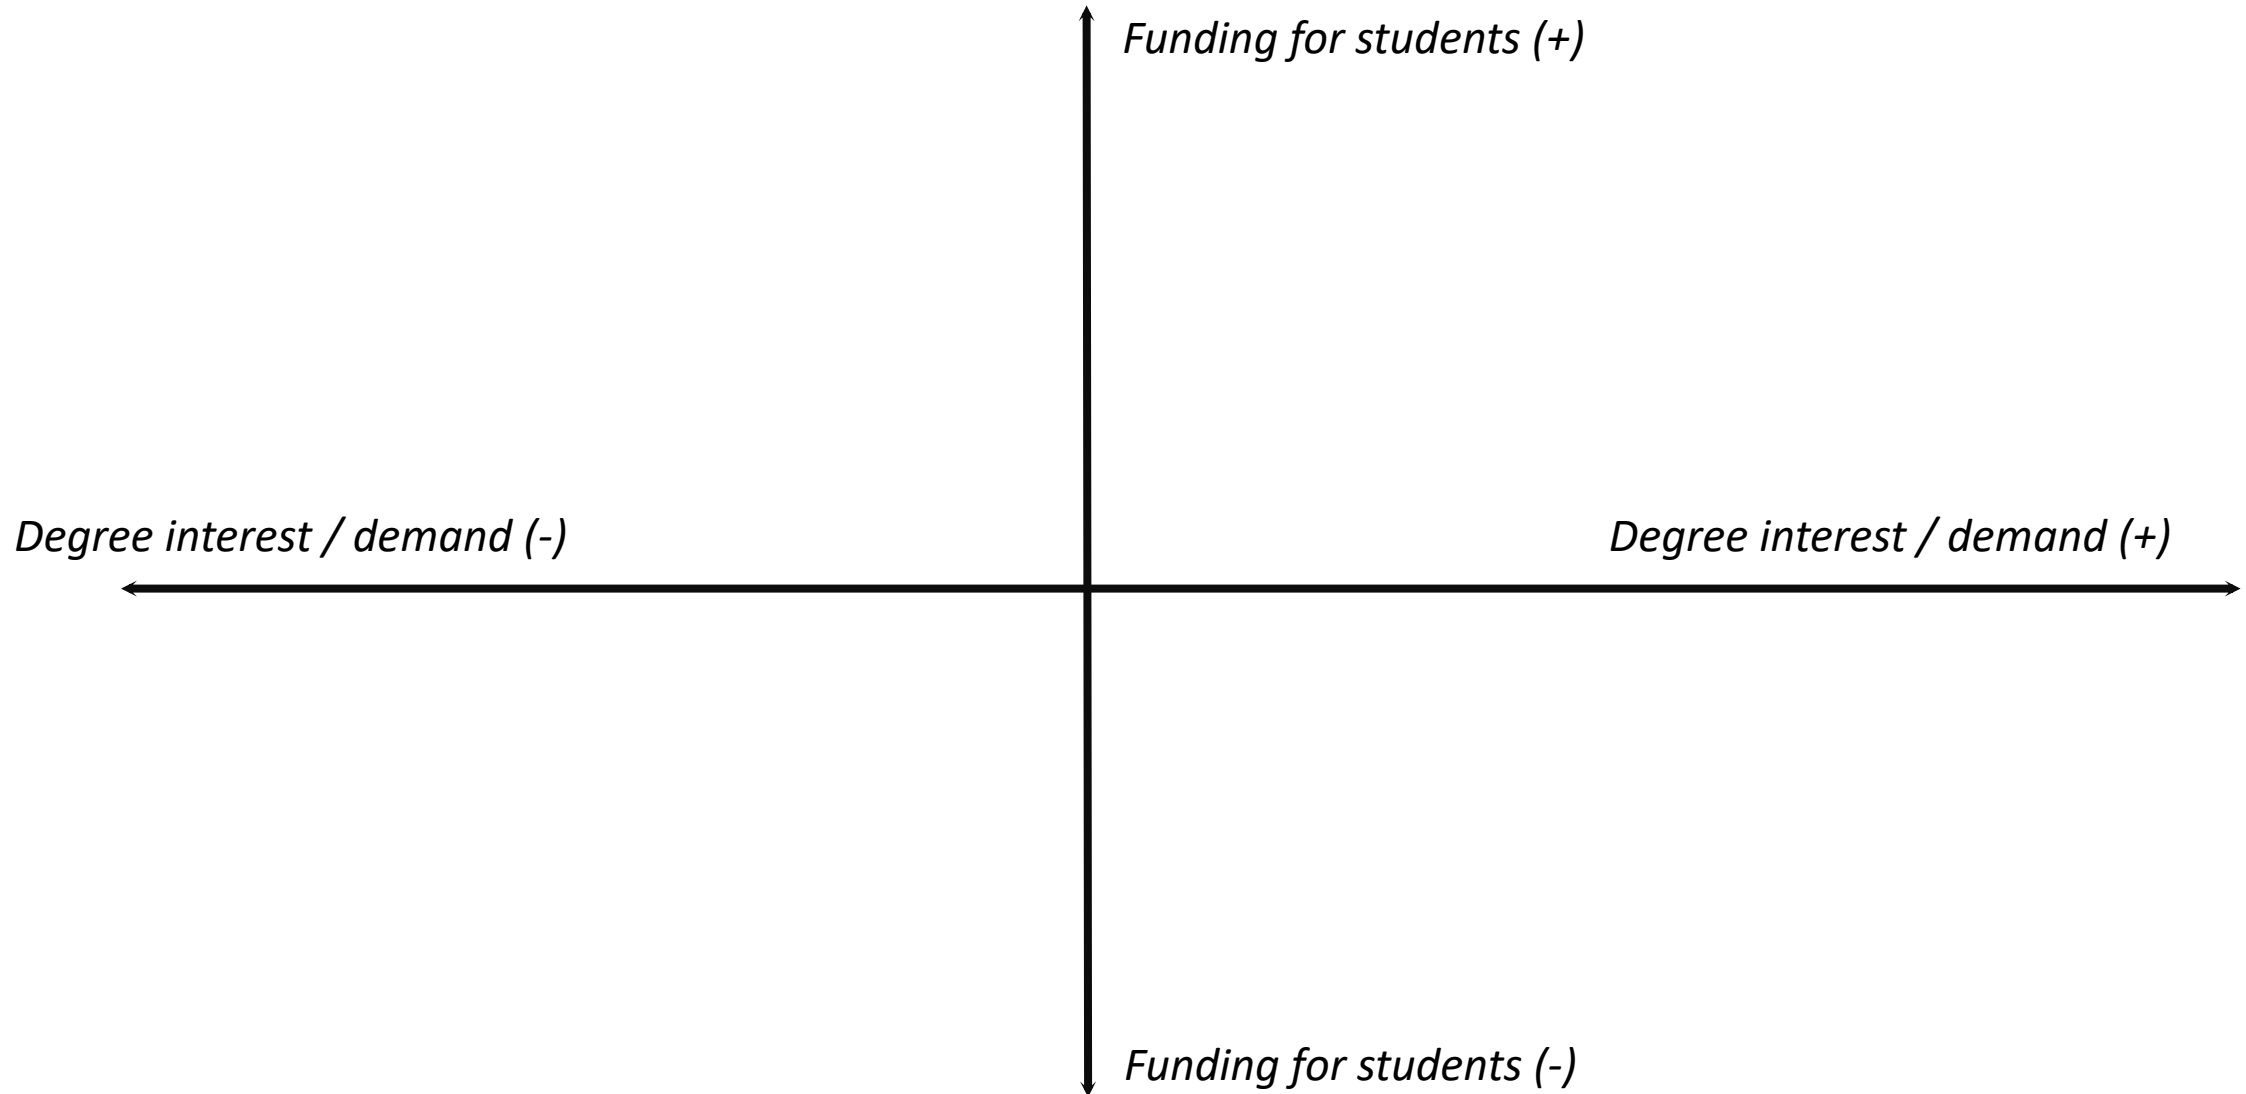

Humanities v Political Upheaval

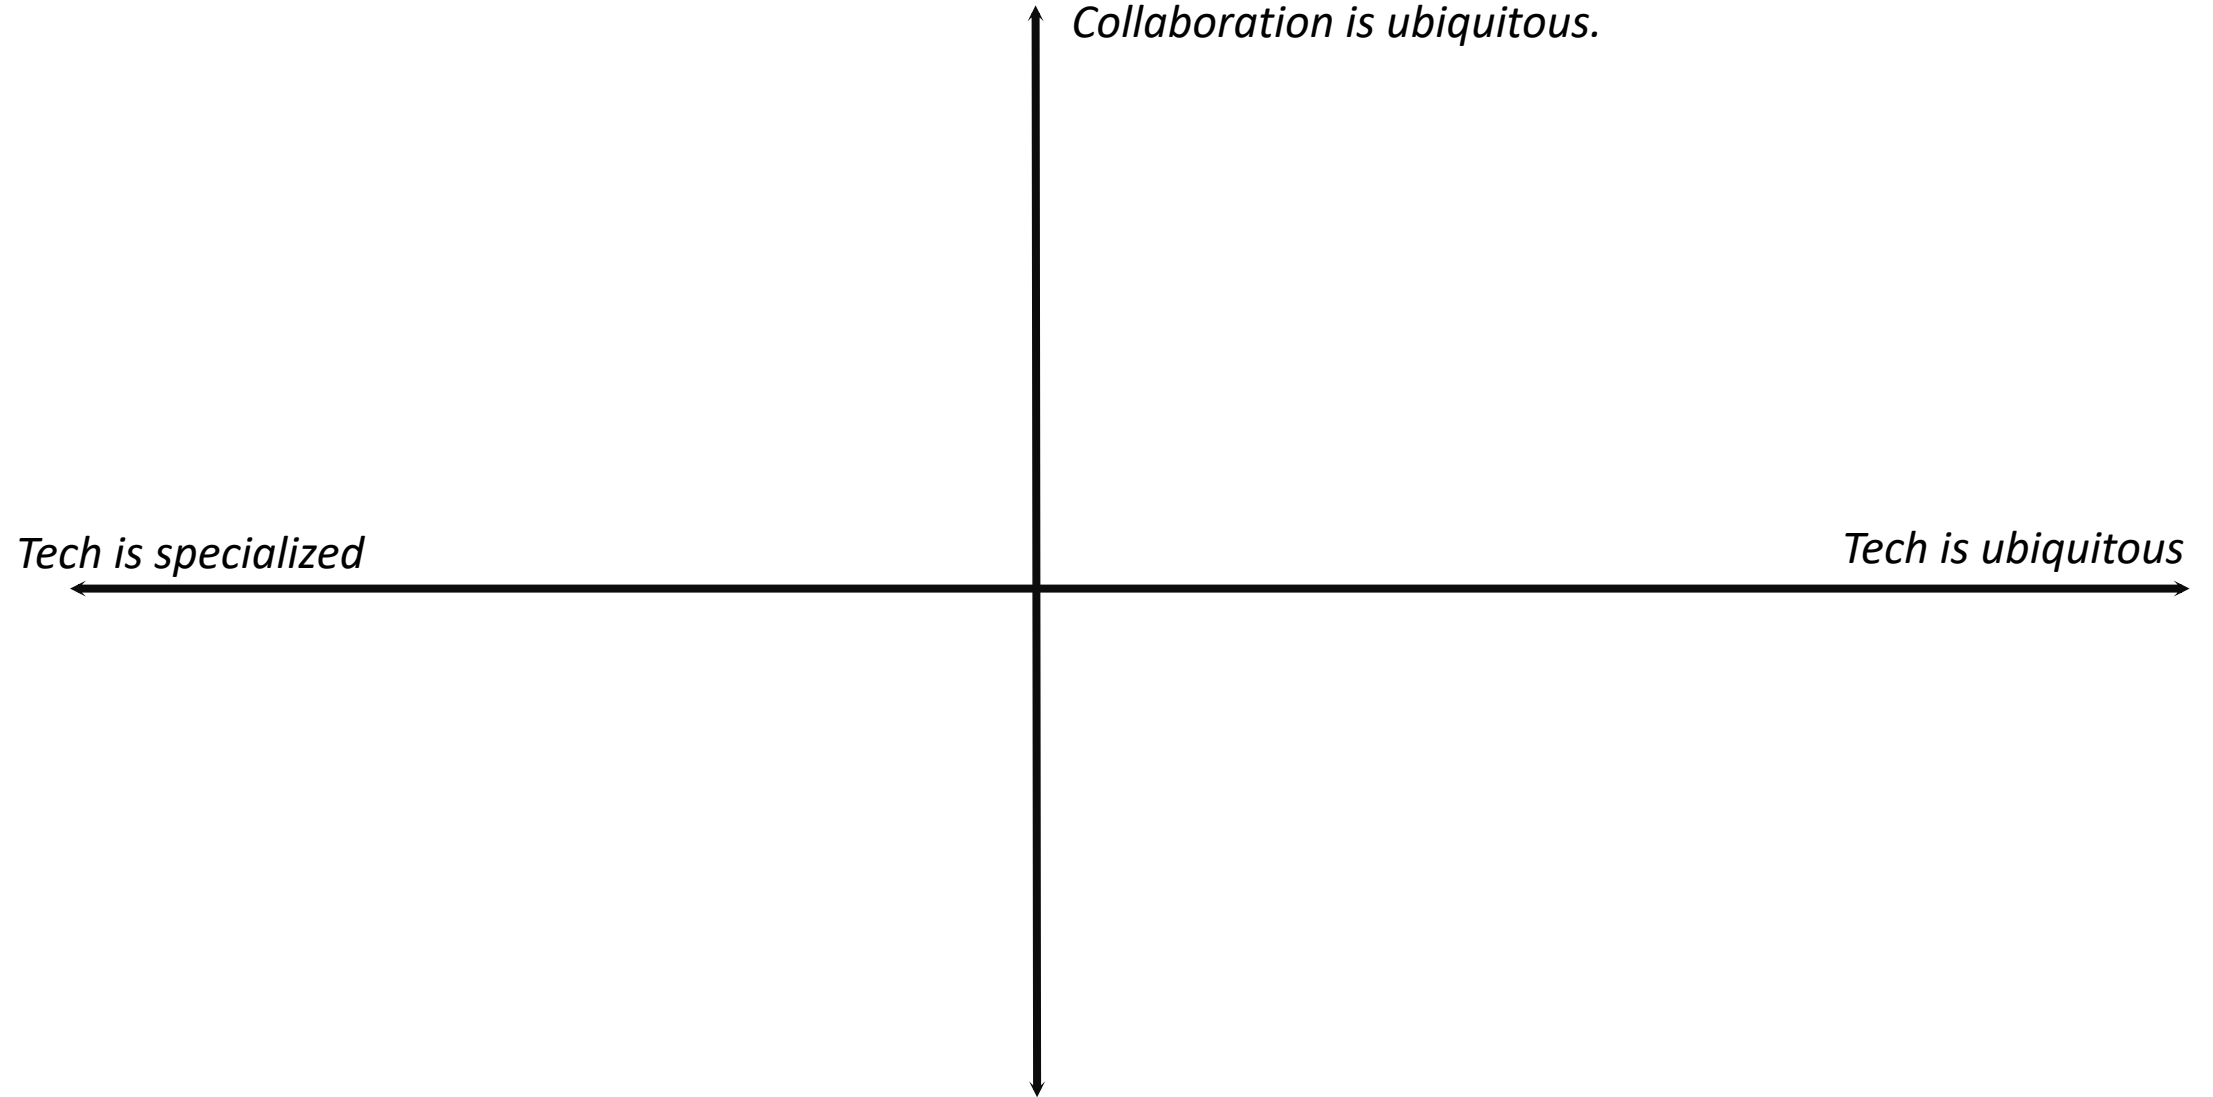

Cultural Competency v Diversity

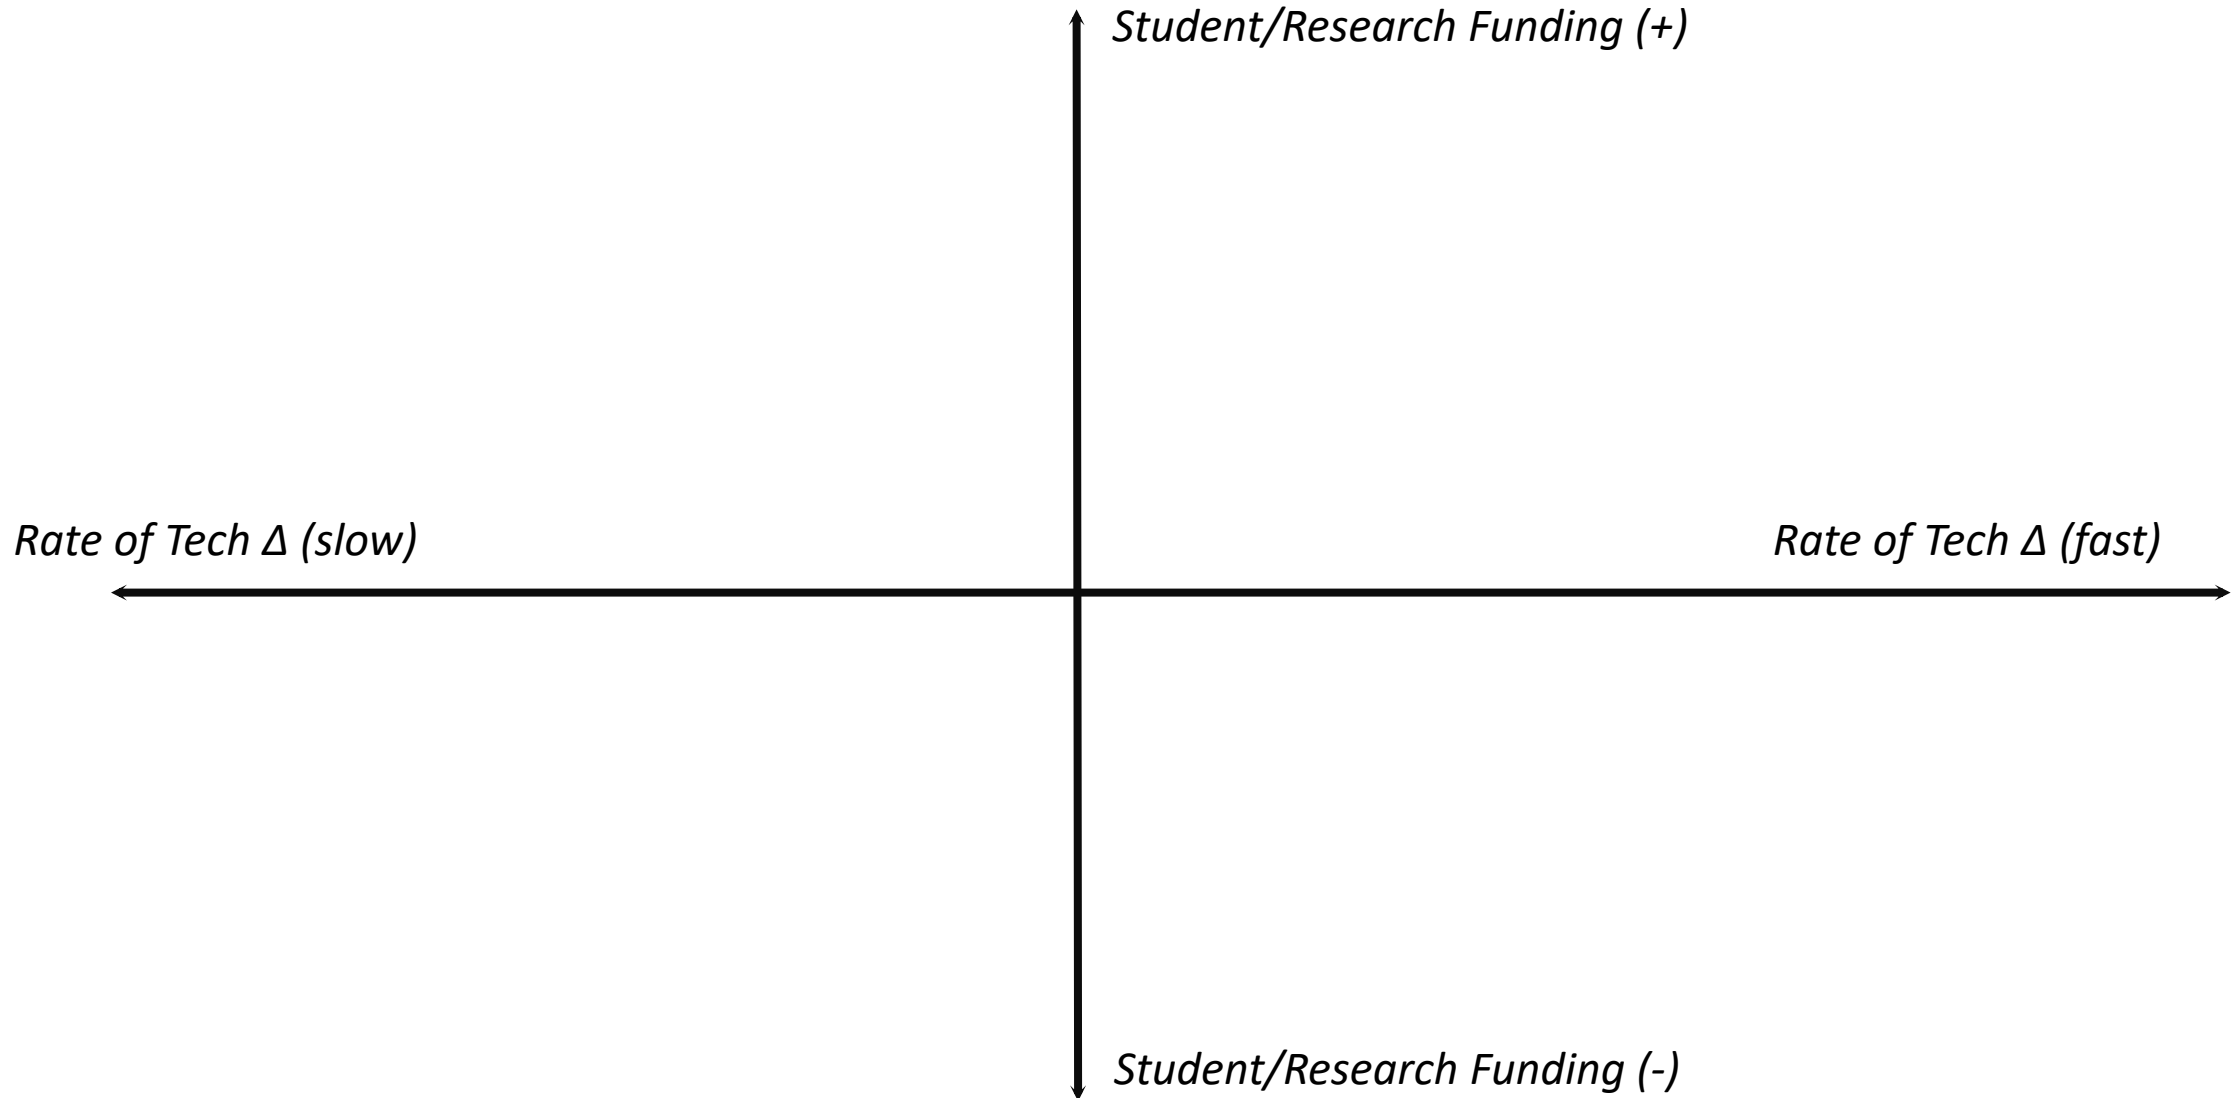

Interest in BE Degrees v Student Funding

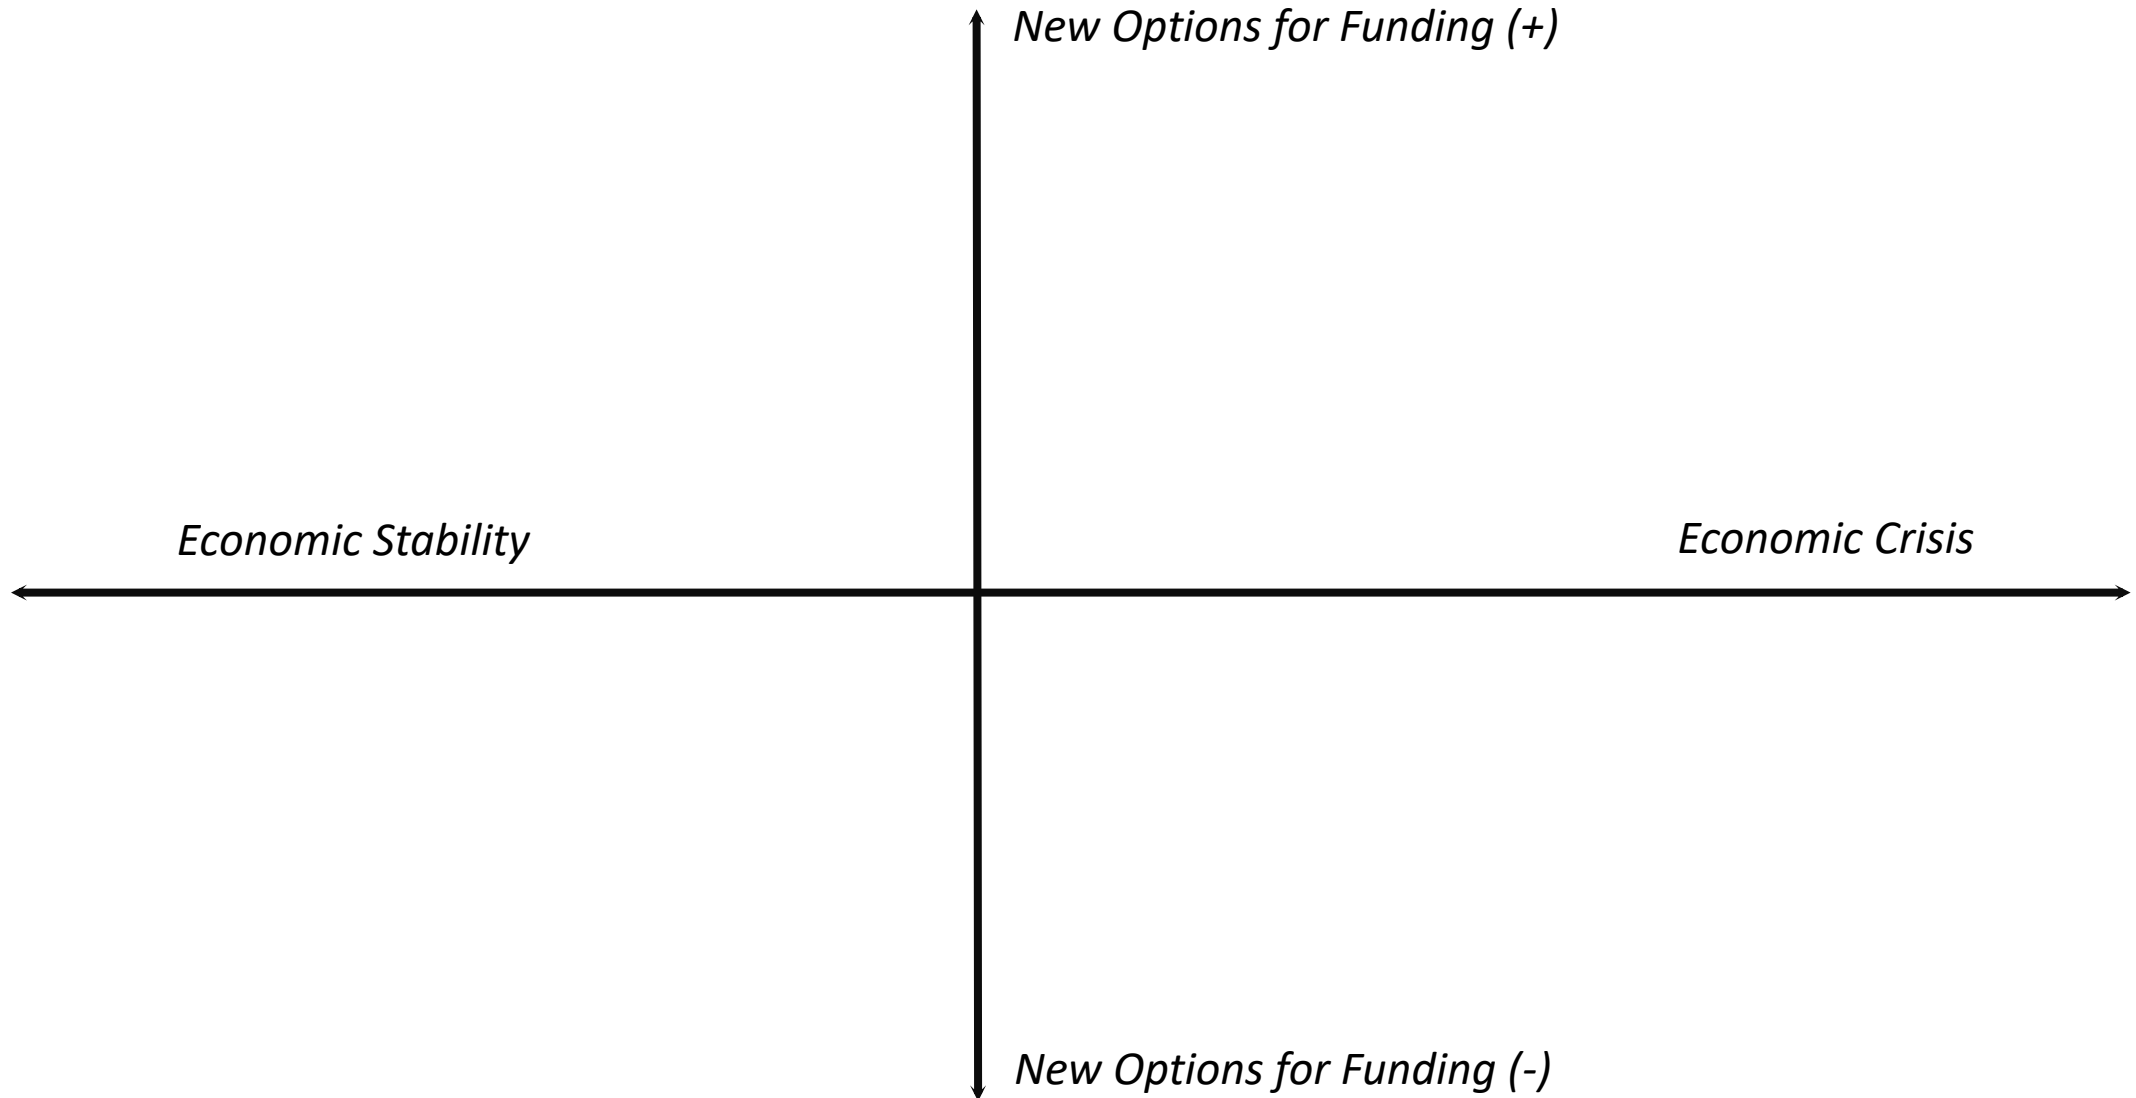

Collaboration v Technology

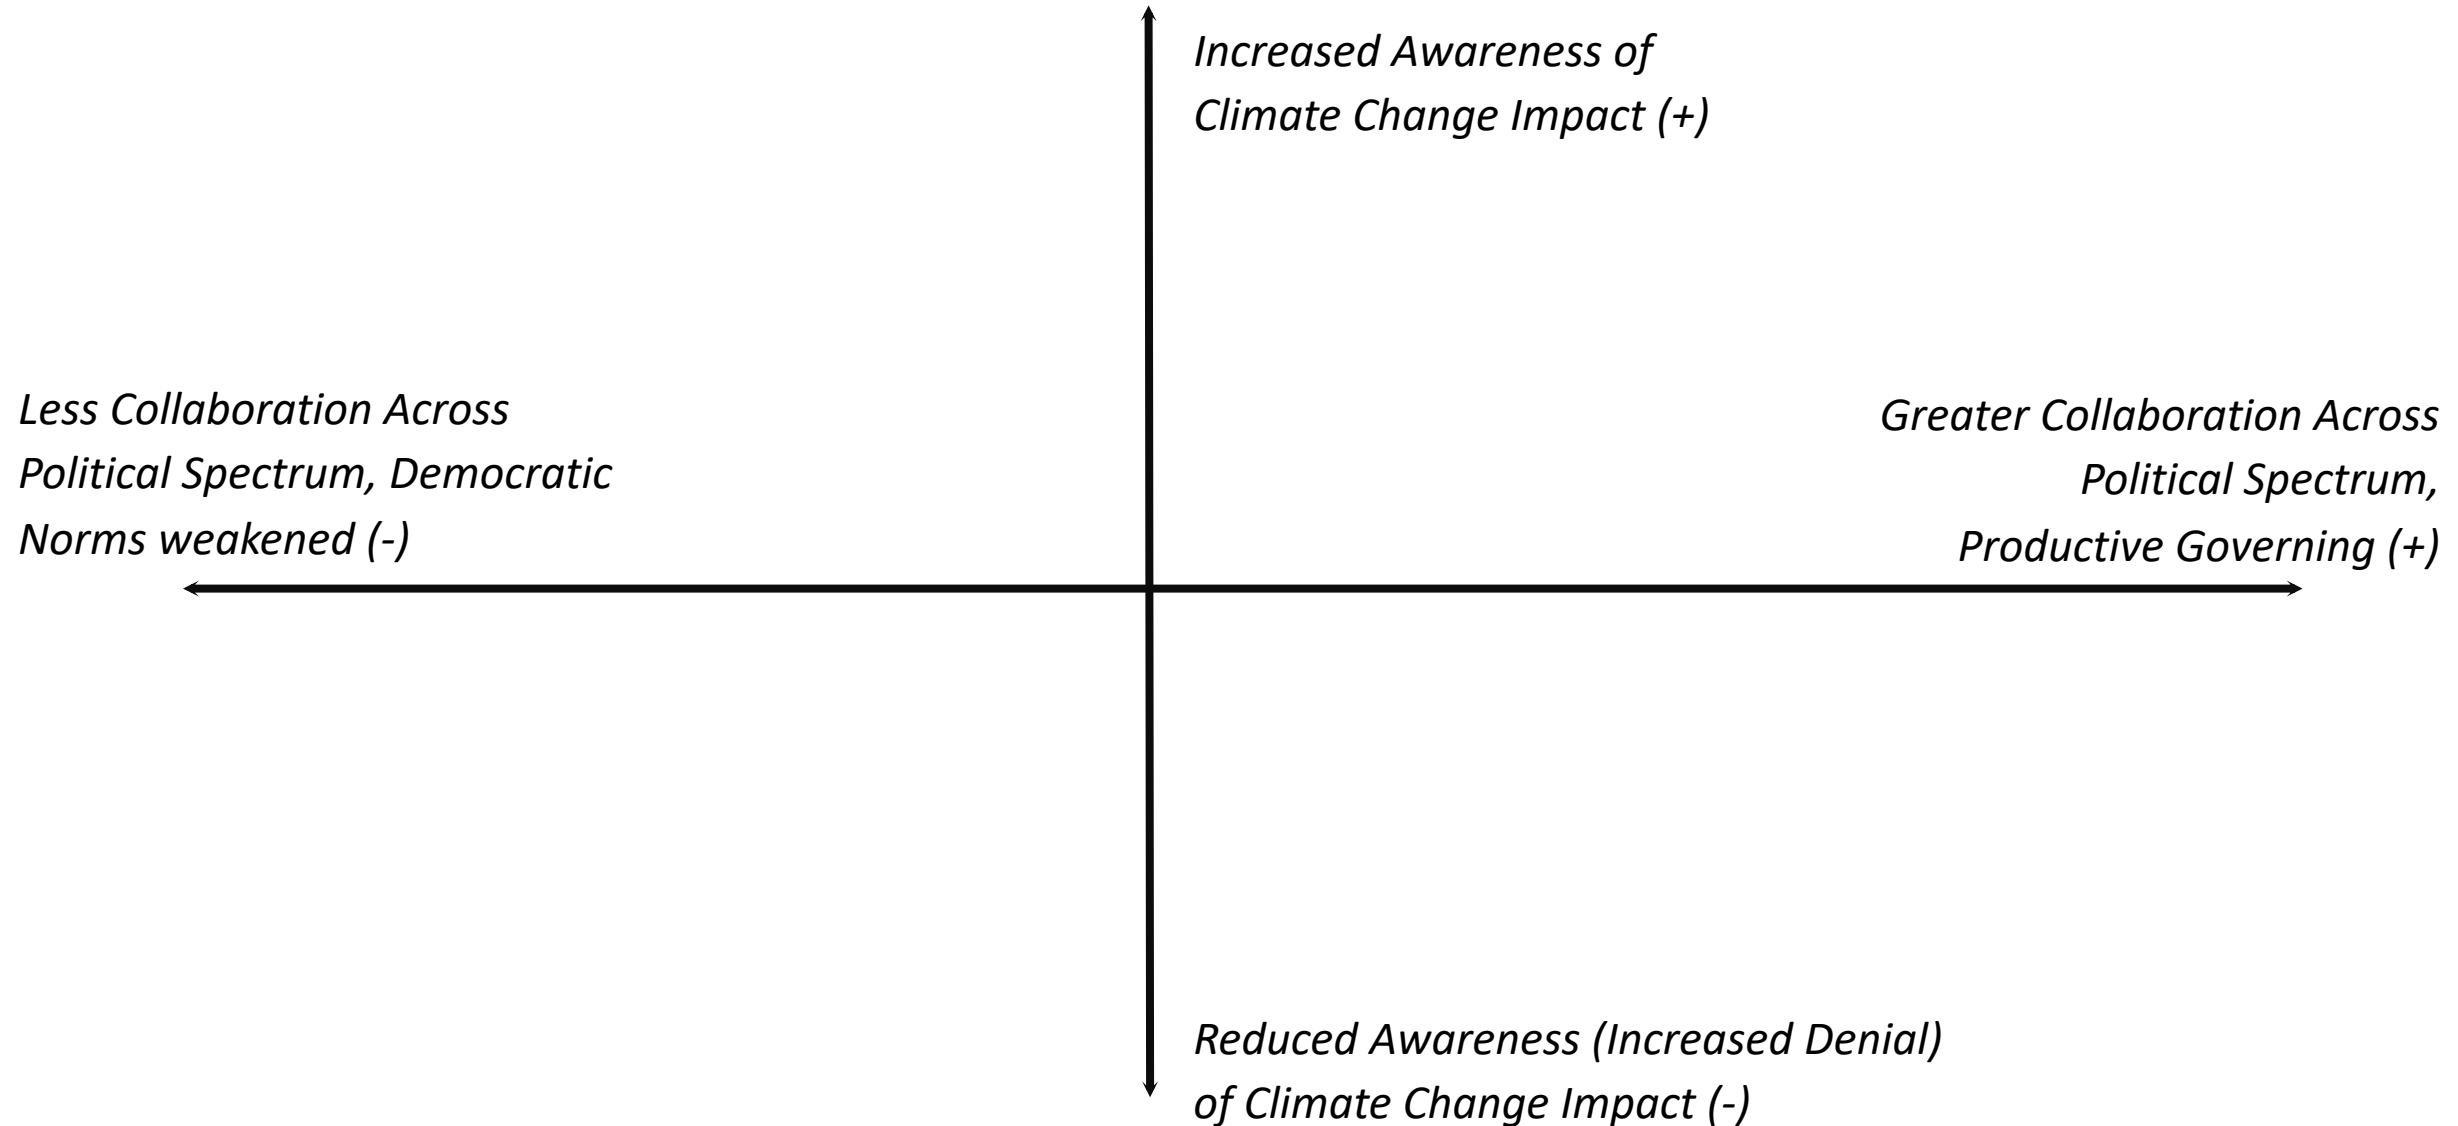

Rate of Tech Δ v Student/Research Funding

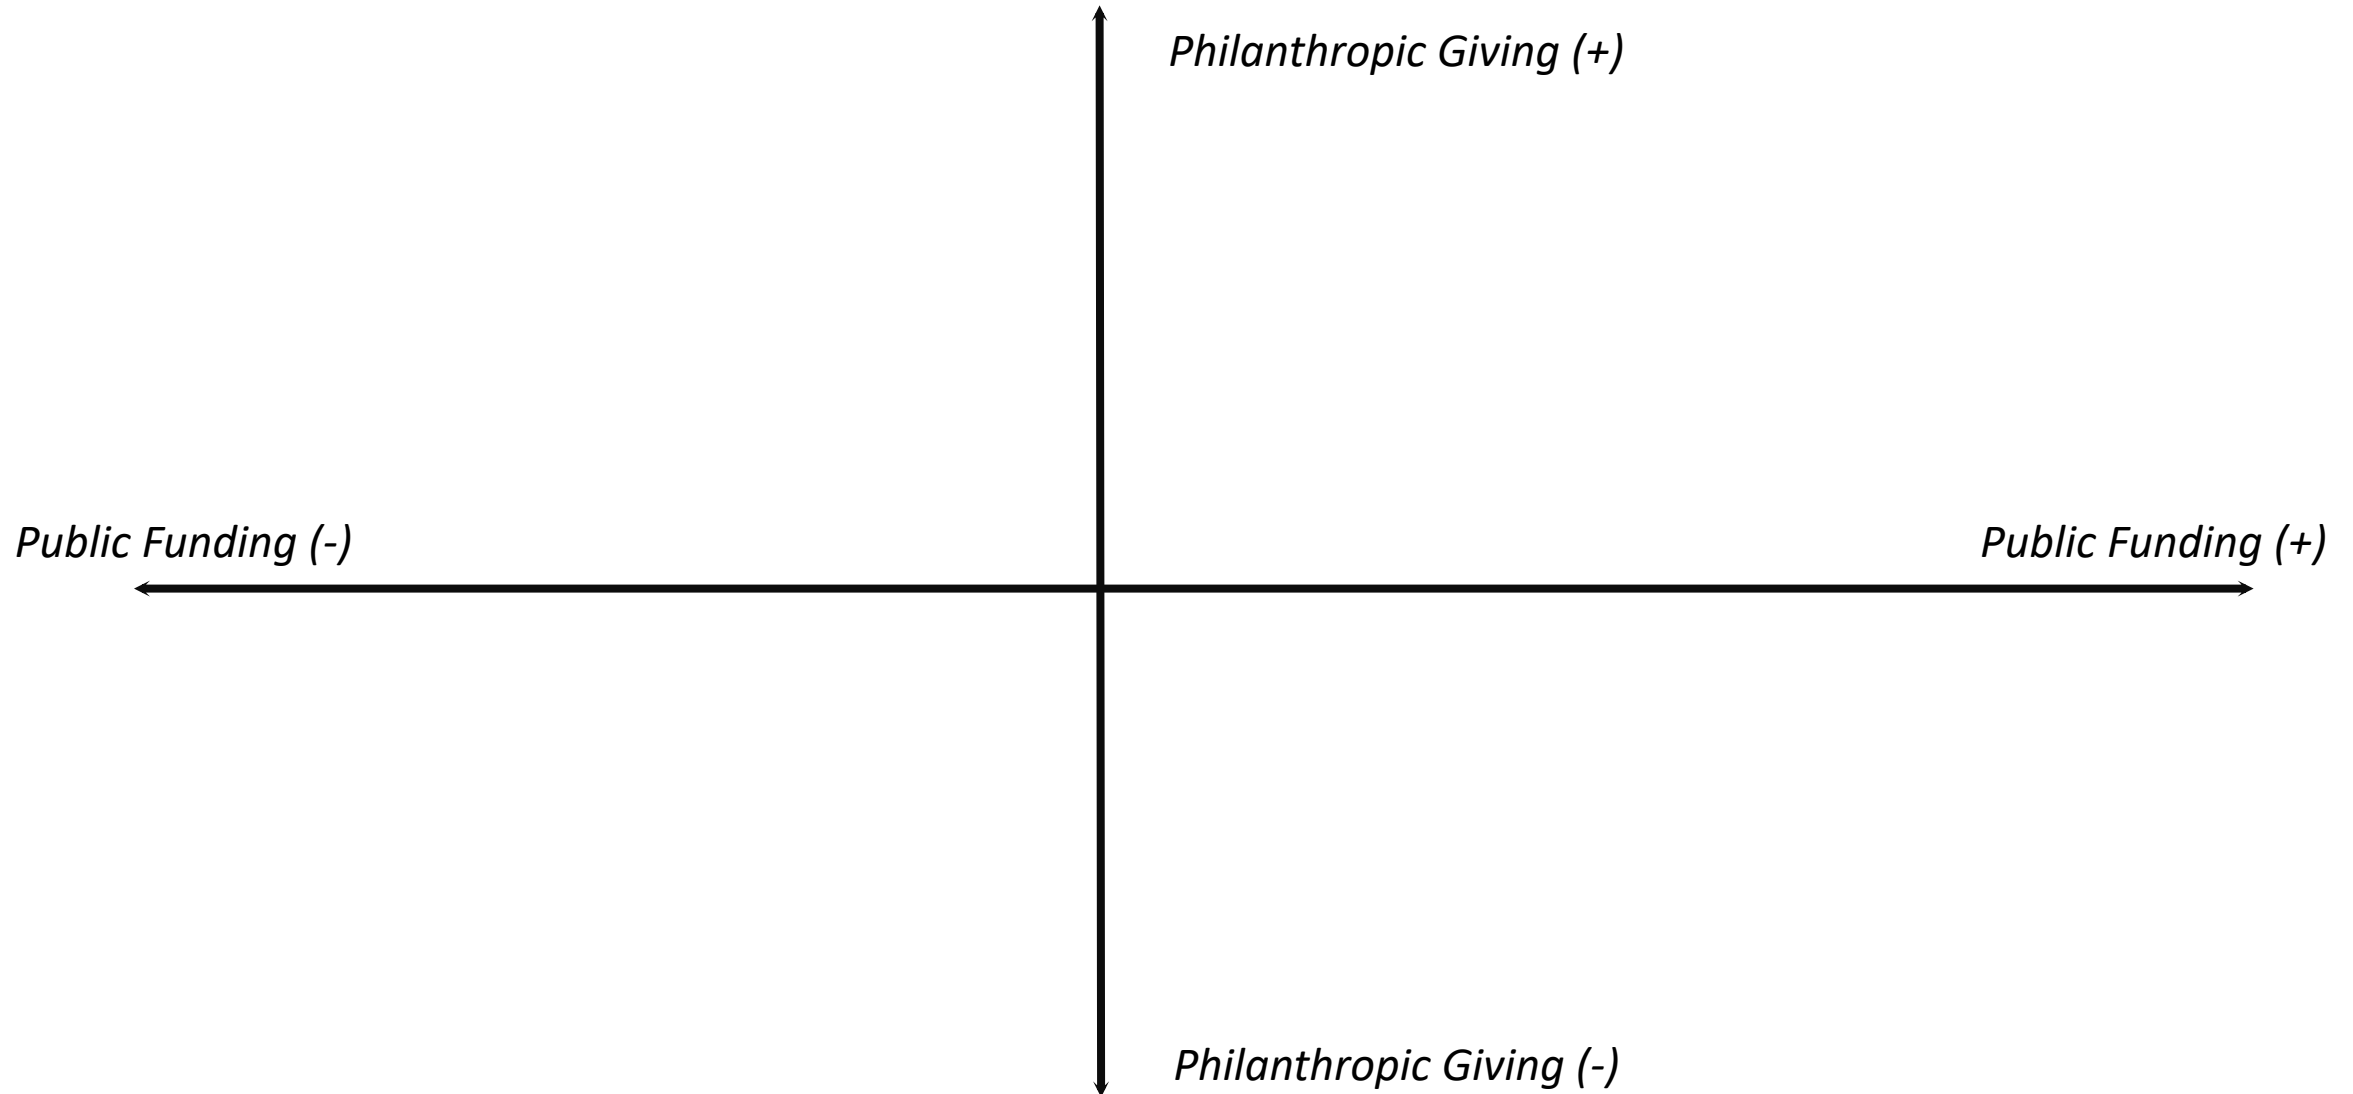

Economic Crisis v Options for Funding

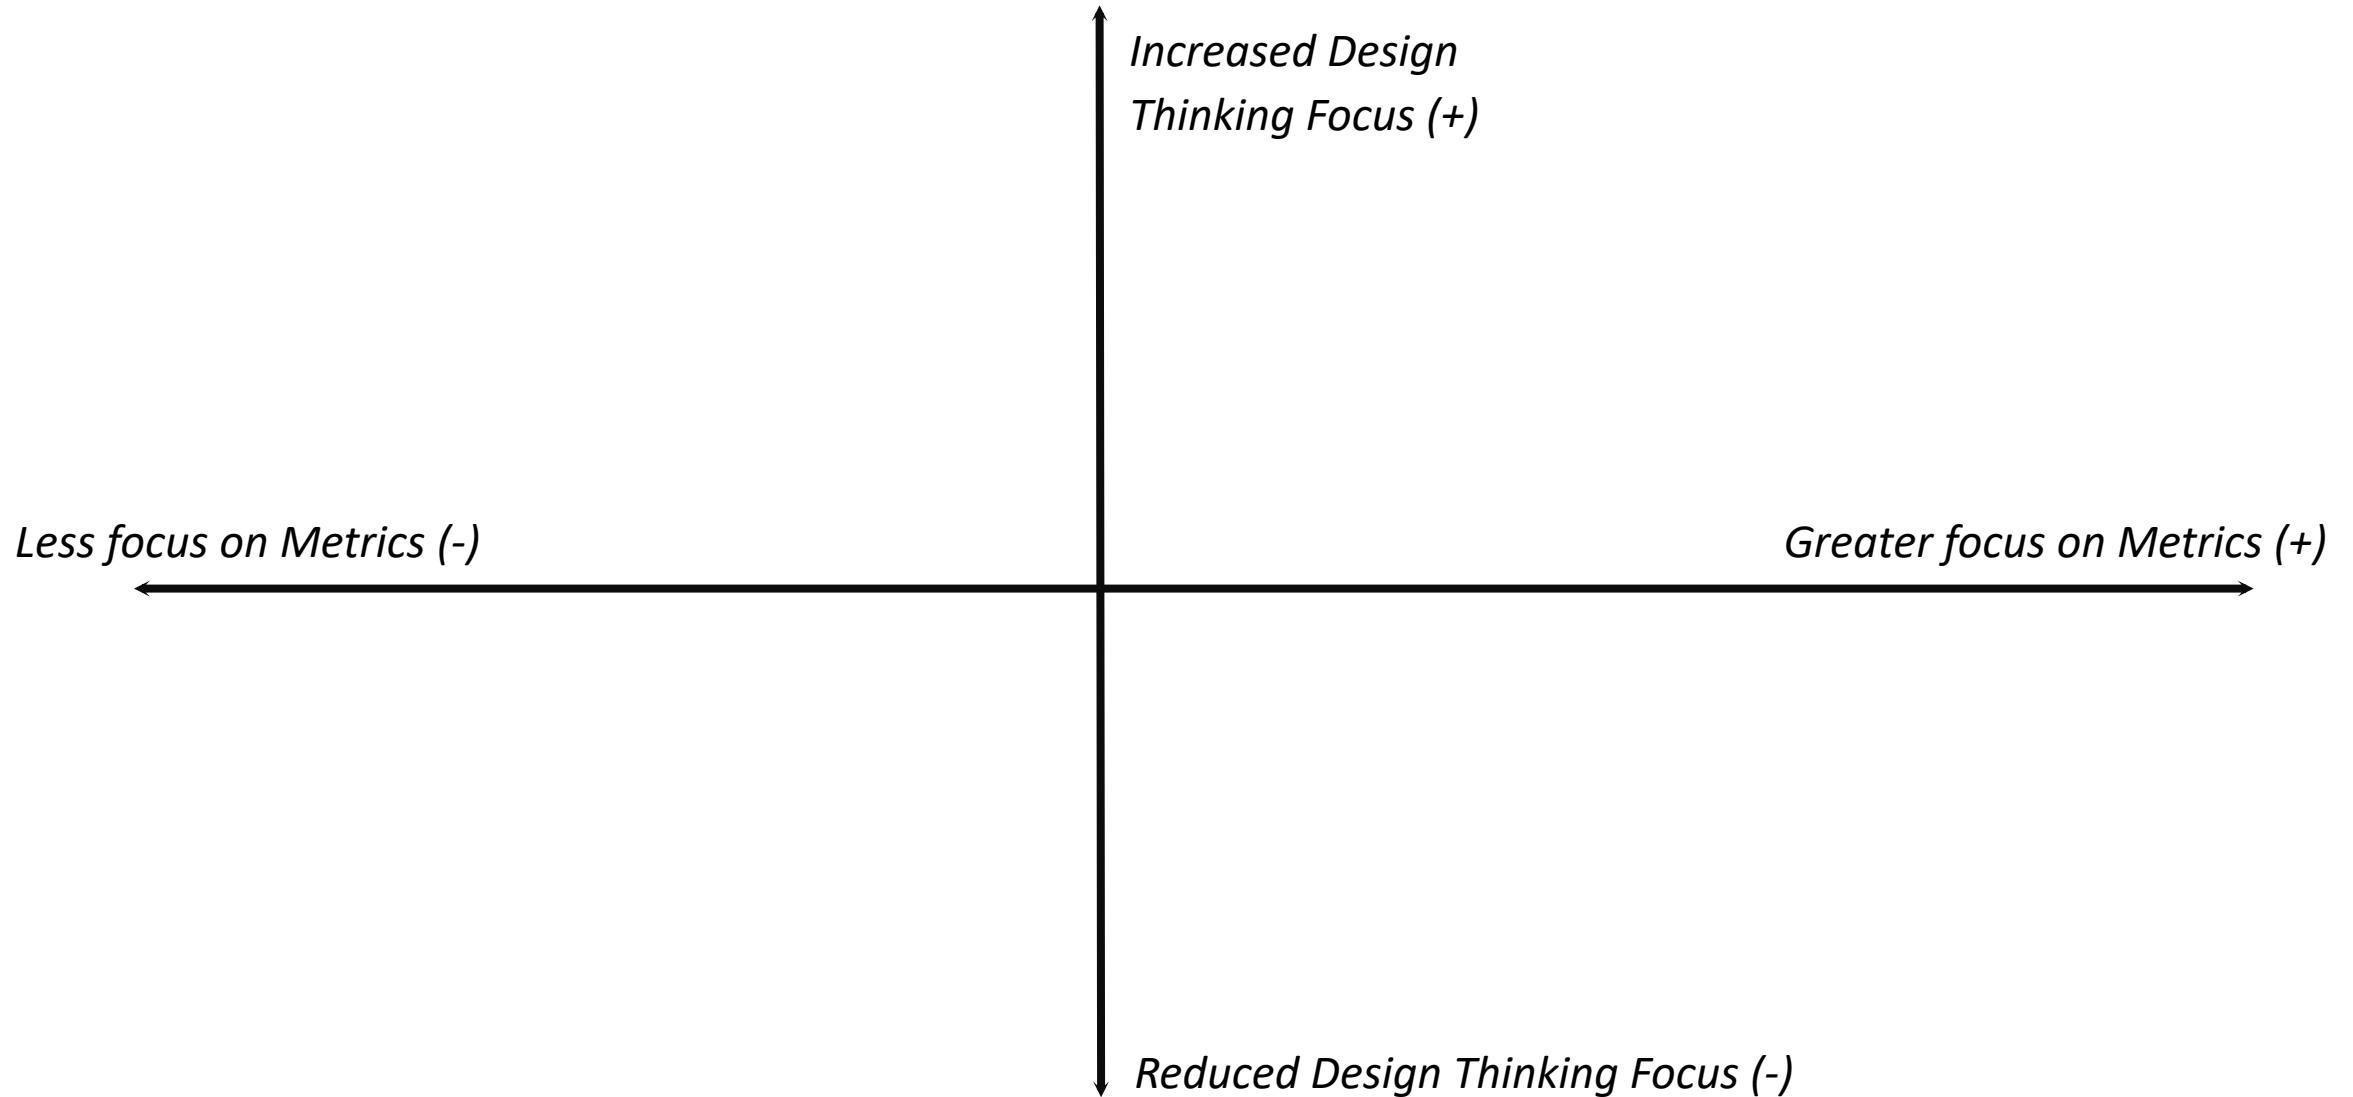

Effective Governance v Climate Awareness

Public Funding v Philanthropic Giving

Design Thinking v Metrics-Driven Evaluation

An architectural rendering of a modern, multi-story building with a glass and metal facade. The building is surrounded by lush green trees and a paved walkway with people walking. A car is parked on the street in front of the building. The sky is blue with some birds flying. The overall scene is bright and sunny.
